

HR and I are impressed at how much he missed that you did not in some of the NYT's in your mailing postmarked 6/25, such nice quotables as Reich. I assured him that I also get as careless as he does in haste but you and Lil don't. Particularly valuable were such other items as the Exam Service story of the busting up of the Pekin demonstrators. Saved the Hoppes for for nightcap! Safire in his place when he vacationed: was this deliberate, an editor's way of ridiculing Safire? Did you note that his line was taken directly by Burhardt in his "questions" for the Ervins to ask of Dean? HW 6/27/73
