

I don't think you need the background of the lower-court pleadings and the texts of the appeals to see the significance of the decision I won on the spectro. I have dupes of some but haven't sent because I don't think it worth your time. I asked Howard to forward the decision, for ultimate return, because it guts the FBI's claim to the right to total suppression, is the basic decision on the investigatory-files exemption, and gives you a commentary on the press you don't need but I offer because in this case the narrowest, selfish interest should have promoted attention. The big press, not I, is the major beneficiary. I'm told there was nothing on the wire. I phoned GBS, Post. Star, NYTimes and took a copy of NBC.
