

HW:

Presume you noted in WX Post for 17 March 1973, story you sent about Mollenhoff rejecting executive privilege regarding his knowledge of the Air Force's campaign to fire A. Ernest Fitzgerald for exposing the \$2 billion cost overrun on the 5A transport.

Sty says in material Mollenhoff has turned over to Fitzgerald's lawyers he says Dean chewed out a subordinate for supplying the Air Force with material on Fitzgerald from WH proceedings. This seems remarkably parallel with what Dean himself is supposed to have done in turning over FBI reports on Watergate to CREEP.

Noting this in case you overlooked.
