As I continue reading the (very) Gray testimony, I've come to believe that I should not only make a chapter of it but, with the necessary connections only and those held to the minimum, have it only excepts from his testimony as it relates to WG. On Hunt, investigation, wire-tapping, it is something. Have you an opinion on this chapter title:

"This Is Your FBD, by L. Patrick Gray"? Does it appear too trivolous? HW 9/1/73

No, not frivolous at all. Very good and to the point. Any copyright trouble involved?
