

Dear Ed, The newsmagazine piece, "The Watergate Burglars Talk, has no source indicated. Newsweek or U.S. News, I presume. It also has no date, so the note, "Weicher interviewed the Cubans last week" doesn't tell me when. Because you sent this the last week of Aug., I take it you meant the week before that. I think I had heard of this and found it interesting, but no details. Now the ~~two~~ capers the mag piece cites from WGCommittee sources are not new in the news, which makes me wonder. I don't believe what appeared earlier, I'm sure leaked from another source, that the Hunt way of ending heroin from Panama was to know their dictator off. It also is ~~is~~ not that important a way station. Id serious, which I'm not persuaded, canal problems more likely. Anyway, these Cubans were in the DC area, for they were at the Montgomery County Detention Center. Anderson saw Fiorini there. Weicher may have. Thanks, HW
