Until you have a chance to read the witness summary you will not know if you want more like it. If Jim did send it, please let me know when you get it. I have a few other things like it now and will be getting around to copying what I think you may want.
You have not seen the writing I did on the Miami Mafia. It pretty strongly suggests that the known similar jobs were theirs. With the major one, there is no doubt now. Maybe this can help your thinking. ~~Especially~~ Especially about all those who knew and have been silent and have and have had needs that to them were urgent. And why one in particular is so nervous on camera with questions.
