Re yr 17Jan letter to Sussman regarding Rose Mayy's Baby wherein you say on page 2 that you "recall no reporting that takes cognizance of the certainty that she is at least familiar with tape recorders."

Your hunch appears correct that she has more than average familiarity. See TIME, 10Dec73, page 18, 3rd column which ends a paragraph on her with: "At home she often listens to music, using what a frequent visitor describes as 'a really good tape system.'"
