Dear Harold:

The enclosed clippings all concern stories you've seen, but these versions may have bits which would be useful. One set concerns the fleebus caper, another the Calif State Bar Assn stance, (ignoring GL's resignation), and a small selection on lawyers in the case and an extra yarn on Jaworski inheriting the tape experts who have been handling the latest batch of tapes for Sirica.

Sorry, re yr 9.9. note about the Zuno kidnaping, we passed that whole bit and it got clean away from us. If I run across anything further I'll try to recoup.

Best,

Jim
