

JDW, Lil is typing the overly-long speech I plan and hope to make at the NYU gathering. I do expect some opposition and I'd not be surprised if Lane has an anti-me claque organized. If he has been given a notion of what I plan to say. I've told the people putting it on. Speaking this will be a lot more difficult than having it read, but I have no real choice. It has to be done and there is nobody else who can or will do it. I hope to get a carbon to Lesar so he can read it while on the train. The big need will be cuts, I think. I'd rather not cut, of course. I want to say it all and I'd have liked to have said more than I've written. I did cut. And I did not address all needing it. My purpose in this is to ask you if and when you read it to have a pencil in hand. There may be an occasion for a similar speech again. Lil is making an extra carbon for you....As you can gather from other enclosures, the disclosure business is not really impeded by fatigue. I'm gettin' stuff-real stuff. The spectro/NAA suit is as significant as I was sure it would be, esp. in the omissions. Best, HW 4/21/75
