

Dear Js - Just in case you missed it and are still interested in the art of acupuncture:

In addition to the British clinician, the Filipino cardiologist, and the Illinois psychiatrist who attended the World Acupuncture Congress at Pennsylvania, all of whom used the procedure in treating psoriasis, there is an M.D., one Arthur L. Kaslow, at Solvang, Calif., who not only uses it for that disorder but also in the treatment of multiple sclerosis.

I'm taking advantage of the open envelope Harold keeps on his desk until he accumulates a healthy amount to mail.

Hope the house is well shored up by now.

*Lel*
