

JDW:When I go to the P.O. later this a/m. I'll mail 3cl a pkg of the new issue of Counterspy and some flyers. I got a dupe of the mag for you and the flyers are cheap. Thanks for using them when you can. I don't know what our supply is but we should still have over a 1000 so if you can use any more, please ask. They have already paid for themselves. The odd thing is that while I sent them only to those who have ~~written~~ written me over the years, of whom more than 500, or more than 20%, have moved and the mailings were returned, we seem to have sold more of the old books than WW IV. Yet all these people have had flyers on all the older book except that we did not send a full mailing out on F-U, of which this trip we sold fewest. To put this another way, it seems to indicate that people have most interest in the subject in general and that they want to replace copies lost or borrowed and not returned or to give to others; or having failed to order these books when they were new now do want them.
