Herewithn the Times' coverage of Mardian's testimony of Dec. 16, which arrived only today. You asked about this in a note written the night of the 16th after you had heard a CBS treatment of the same testimony. I find nothing in it to support the impression the Post gave that Mardian was hinting that the CIA had infiltrated CREEP, but am sending it along just in case it may have something I've missed. Ceisner appears to have been overawed by the way Mardian was nasty with Jill Volner during her cross-examination.
