

JDW:Yesterday we filed another FOIA suit, for the two complete executive session transcripts still withheld and the two pages of other I have except for those 2 pp. To put this other ways:I have all but these and I've gradually forced the disclosure of all. Each new one is seamier, so I rather expect these can hold some pretty significant content. We can file anohter when we want to, having carried the administrative procedures to that point. The basis for selecting yesterday may interest you: Jim had to be in a nearby court so he just walked over and filed it! We do what we can when we can. HW 9/5/75
