

JL:I Have but have not read the first of the Szulc series. I won't read it until I can go over all together. It occurs to me that whether or not there is basis for my suspicion Howard and the Whites should have copies. I gave Floyd the Whites' address. Floyd said he'll try to get and send them copies. I didn't think of Howard when Floyd was here. He brought the District News returns. I have a notion I should have two copies, one for marking up, if you wind up with any extras. We should have one unmarked for possible future use. I have not written New Republic. I'm assuming they'll have an article or articles and that reading might be better with them. If you have a copy of the first for me we can send that one to Howard without making copies. If you mount them that will be the easiest and best way and time for any copying...I have sent the Whites one extra copy of ~~Key~~ Skeptic. Howard had one. I've another if you have need or know anyone who wants it. However, it may be another case in which we may want a copy for marking... I'm trying to conserve time. I turned down a speaking engagement today and turned off a student who was late when he called to see if he could still come. Told him to postpone it now until after PM is out. When I got up at 4 and he was almost four hours late and then called instead of being here I felt justified. I'll be turning down all I can until PM is out. Best, HW 9/20/75

SEP 23 1975

Unless there is something exceptional, please don't bother making Hearst copies for me. I won't have time to read them. Thanks.
