

JDW: Wednesday evening I taped the "ou Gordon show in "etroit. "t is not aired around here. it is in SanFrancisco. I understand that in syndication it is aired beginning the 18th. I'd much appreciate a tape nit for the usual reason, to listen to myself and learn, in this case did I hold back too much, but for other reasons. He did speak of having FEB 12 197 spoken to the judges and in one part I think reports what no judge should have said and whether or not with genuineness did wind up making what can be a valuable offer. I am anxious for Lesar to hear both. I'm not sure but I think we did more than two segments. I know we did two. The last is where he offered me his hand and a left-handed compliment. The end, rather, of the last segment. He almost turned around before air time then decided to be what he has been...The committee is coming apart. The funniest incident has to do with the bugging of the bugger. Sprague held a staff conference at which he spoken ill of Gonzalez. A member of the staff taped it clandestinely, made a transcript and gave it to Gonzalez, who started opening up on Aprague Thursday on a midday TV talk show in DC. That is the day of the evening on which he told Sprague to leave. The rest is coming out.

Best, HW 2/12/77, from under an enormous stack!  
The FBI part is incredible, important.
