

JDW: Kerry. Mystery. He was to have been on ABC's AM tv today after several segments with them and Jack Anderson yesterday. No appearance, no explanation. I monitored both segments to be certain. ~~But~~ Earlier he had said he was quitting his country. Then he said that what happened in Chile was JFK's fault, that the efforts to bribe include the accepting Allende, and that the ultimate dirtyworks were over his expressed objections. He says that there will be indictments from his conversations with DJ, one for sure Helms, a probable a high corporate executive, and that there may ^{be} a conspiracy charge added to perjury. He was not able to hide his authoritarian belief that us running them is proper. HW 1/19/77
