

Js, I've gone through more than 2,000 FBI records on the King case. Except for an occasional - I think to new only two- tirade at the press he is the one person not ~~here~~ there. No beating to him. That was taken care of by another on the ~~list~~ list or more than one. Hungup! This is first page only. No recoverese on others. Just the rest of the wire copy. I think I'll use a couple in facsimile to flavor the stew he cooked...At this rate I should have at least a dozen. This is from the 15th of an 88 admitted FBI HQ files. Today's cut me to sleep except for a few things like this. H 1/26/77
