

Dear Jim,

4/1/81

Made this carbon of hurried note to DW re Reagan shooting, in the event you did not see TV coverage.

Yesterday more than Rather made a deal out of Haig's "I'm in charge here" and his revision of the Constitution.

If the would-be assassin had not been of the right there would not be so little said about the ~~right~~ political aspects. Only the left has political significance.

Not much new here. The weather has broken and I hope it means we can both get more time outside. Got to an actual 85 yesterday. Let the stove go out two days ago but probably need it again some nights soon. First jonquil yesterday.

One of my immediate jobs is readying for a strong case in the spectro case remand. I've been making extra copies of pertinent records as I came upon them. This special subject file is now about 10" thick. I'll be putting it all together. Regardless of the use we get to make of it can't get to make in court, it will be an important statement of the deliberateness of the refusal to investigation and of the deliberateness of covering up. With lots of new stuff.

By relocating two of our hanging bird feeders we've acquired a great number of new birds and species - and can see them from the house. Reminded of this as I see the first of them beginning their day. We have four small feeders on the windows and the come up there for sunflower seeds. So we can see them better closer.

Hope all is well with you.

Our best,
