# Attica Prisoners Notified by State of Right to

#### By ERIC PACE Special to The New York Times

BUFFALO, Sept. 27—State authorities disclosed today that they had given Attica inmates written advice of their right to speak to a lawyer before being interrogated about their actions during this month's prison rebellion.

Appearing at a hearing in the Federal District Court here, lawyers for the state also dismissed as hearsay a Legal Aid Society lawyer's affadavit alleging that an Attica inmate had been tortured after state troopers gained control of the prison.

Lawyers speaking for Attica inmates said the written advice to the prisoners was insufficient to "dispel the coercion and intimidation of Attica inmates rampantly prevailing.

#### Affidavit Charges Brutality

Federal Judge John T. Curtin presided at the hearing, at which the inmates' lawyers pressed a suit to have the state give them more facilities to prepare the defense of inmates allegedly involved in the revolt, which led to the loss of 42 lives and was crushed on Sept. 13.

The affidavit, signed by a Legal Aid Society lawyer, William A. Nelson, listed alleged instances of brutality inside the prison since the state regained control. Among them it recounted this alleged incident:

cident: "One inmate was singled out as a 'leader' by an officer and led naked to a table in A Block, made to lie down with a football placed under his neck. Guards then spat on him, a lighted cigar was placed on his penis and lighted cigarettes were put on his stomach. He was then beaten and an officer fierely kicked him in the testicles."

Judge Curtin reserved judgment on the inmates' suit, at least until Wednesday, when another hearing is to be held.

There were these other developments today stemming from the Attic rebellion: Sixty relatives of Attica prisoners were turned away from the prison's gate this morning after they had chartered two buses from New York City in an attempt to visit inmates. Richard Butts, an executive of the New York Urban League, said: "The guards had utter disdain for us; the warden wouldn't even come out and talk to us. But none of the relatives we brought up had ever been notified that visiting was not permitted now."

Charles Carter, a civil liberties lawyer, reported after a visit inside the Attica Prison that prisoners were now being allowed to exercise regularly, though in smaller groups than before the revolt. Toilet paper, soap, tobacco and cigarette Consult Lawyers

paper are also being provided to inmates again, according to Mr. Carter, a staff lawyer for the National Association for the Advancement of Colored People.

### **Tensions Reported Easing**

Several observers who entered the prison today said they believed tensions between guards and prisoners were easing.

Inmates in A and C blocks were allowed into their yards today while two guards armed with rifles stood on catwalks overlooking the open areas, according to Donald Goff and Robert Patterson, members of a committee appointed by Governor Rockefeller to oversee conditions at Attica.

Mr. Patterson added that all the inmates in C block and most of those in A block had received one shower since the police assault on the prison Sept. 13. Inmates from A block but they did not say how on recommended changes in were being led three at a time many inmates had asked to see the state prison system shortly to the showers, he said. lawyers.

Appointment Assailed
