STOLEN FBI FILES AND BERRIGAN CASE

Philadelphia - The Philadelphia Daily News reported yesterday that the burglary of a Media, Pa., FBI office has provided associates of the Rev. Phillip F. Berrigan with documents pertaining to the government's case against him and five other persons.

..... The distributed documents, which contained no references to Berrigan and the five others, were "only a smoke screen," the Daily News quoted a Federal source as saying.

"What they really have is the crux of the Government's case against the Harrisburg Six," the News quoted the source.
