Panel Asks Ford to Speed Study on Colby

Special to The New York Times

tral Intelligence, in Vail, Colo., last January.

Mr. Church said that he did not know why the material had not been produced.

Mr. Church said that the White House has identified the materials in the request, reviewed them and that they were in the possession of White House staff members assigned to deal with the committees. He said that the White House had given no indication that it would not deliver the materials or that President Ford would invoke executive privi-

By NICHOLAS M. HORROCK intelligence activities back to 1947 and covering the nity. WASHINGTON, April 9-The terms of five Presidents. When Senate Select Committee on the request was received at mittee had been dealing with Intelligence voted today to ask the White House, aides there Roderick Hills, a recently ap-President Ford to expedite de-livery of the Colby report and and to "sweeping." Mr. Church The committee voted today

livery of the Colby report and other top secret documents it has asked for in its investigation of the Government's intelligence apparatus, the committee chairman said.

In a briefing for reporters after a closed meeting of the committee, Senator Frank Church said that the White House had turned over the "least sensitive" materials sought in a committee request sent to the President in March. But the Idaho Democrat said that the White House was holding back the Presidential directives that authorized each covert operation over the last three decades and the rePort to the President made by William E. Colby, Director of Central Intelligence, in Vail, Colo., Mr. Church said the committee and underlying intelligence and the control of the apparatus and a survey of previous recommendations for changes.

The investigation of spectral to the said again yesterday that he believed the request was "quite specific."

Mr. Church said the committee also voted to give the "green light" to the staff to the glight" to the staff to segme alove the "green light" to the staff to segme alove the "green light" to the staff to segme alove the "green light" to the staff to segme. Intelligence also voted to give the "green light" to the staff to segme. Intelligence also voted to give the "green light" to the staff to segme. Intelligence of interest. The committee. Its counseL F.A.O. Schwarz 3d, later said, will investigate the legal authority in the ligence operations, purposes of intelligence gathering both domestically and abroad, the White House did.

The committee voted today to request the authorizations and legal background materials from the Department of Defense Intelligence The operations of the gall background materials specific."

Mr. Church said the committee said, will investigations of the president in March. In the ligence of intelligence operations of intellig

it would not deliver the inate rials or that President Ford would invoke executive privilege and keep the materials. "I see no reason for any further delay," Mr. Church said, "and neither did the committee."

The original request for information was sent to the President in letter form with addenident in letter form with addendams that sought all the directives covering the formation curity staff, will head a task and operation of United States force on the command and con-
