

Mrs. Allende Arrives in Mexico And Is Given a Hero's Welcome

MEXICO CITY, Sept. 16 (UPI) —Mrs. Salvador Allende, widow of the deposed President of Chile, received a hero's welcome at Benito Juárez airport here today from hundreds of Mexican officials, admirers and left-wing political refugees.

Mrs. Allende, whose husband died in the military coup d'état in Chile Tuesday, was welcomed by Mr. Luis Echeverría, wife of the Mexican President.

The crowd waved Chilean flags, and held posters showing photos of President Allende. Members of minority left-wing Mexican political parties carried banners with welcoming slogans.

There were no special security measures, except for a few plainclothes policemen.

The AeroMexico DC-9 jetliner, specially sent to Chile by President Echeverría, landed at 4:30 P.M. Mrs. Echeverría waited on the tarmac in front of the reception hall reserved for important people.

Members of Mexican labor unions cheered as the plane touched down.

Mrs. Allende left Santiago late yesterday on her way here with stops in Lima and Panama. Two of her daughters accompanied here.

The plane was also believed to be carrying a number of political refugees and Mexico's Ambassador to Chile, who was recalled after the coup.

Cuba Says Envoys Halted Attack on Embassy in Chile

HAVANA, Sept. 16 (Reuters) —Cuba's Ambassador to Chile, ousted as a result of the military coup d'état last week, said yesterday that foreign diplomats in Santiago intervened to halt armed attacks on the Cuban mission during the uprising.

In the face of an assault by troops on the building, Ambassador Mario García Incháustegui said, the Swedish, Soviet, Mexican and Peruvian envoys insistently demanded that the embassy's diplomatic immunity be respected.

He said that the leaders of the coup finally bowed to the demands.

The Ambassador charged that Chilean troops opened fire on the embassy staff Tuesday night despite a safe-conduct agreement that a political counselor, Luis Fernández and, the husband of President Salvador Allende Gossens' daughter Beatriz, be permitted to attend the dead leader's funeral. Mr. Fernández Ona and another diplomat were wounded, he said.

Cuba has asked for a meeting of the United Nations Security Council tomorrow to examine the charges.
