

New Mystery Subpena In JFK Plot Issued

NEW ORLEANS — (UPI) — District Attorney Jim Garrison has subpoenaed a "Dante Marachini" to appear for questioning in his investigation of the conspiracy to assassinate President Kennedy.

No "Dante Marachini" appears in either the city directory or the New Orleans telephone directory.

Garrison had no comment today on a report by a New York radio station that he be-

execution.
The copyrighted story broadcast by station WINS yesterday was reported by newsman Doug Edelson, who said he obtained the information from "a responsible, unimpeachable source who has access to Garrison's files."

A spokesman for Garrison said he would not comment on the report. Several days ago, Garrison said he did not believe any foreign power was behind the assassination.

Meanwhile, New Orleans

civic leader Clay Shaw, arrested Wednesday night and charged with conspiracy to murder, continues free on \$10,000 bond.
