The grand jury is to meet today in the attic of the Criminal District Court building.

The panel is to discuss a letter it received from the Central Intelligence Agency last week regarding a subpena for a photo which District Attorney Jim Garrison claims is being hidden from the public.

Garrison has claimed that the photo shows Lee Harvey Oswald and a CIA agent walking out of the Cuban Embassy in Mexico City in 1963.

Garrison claims that the picture furnished by the CIA to the Warren Commission depicting the secne in front of the Embassy was falsified.

Garrison aides said the move to the attic was made because of noise in the existing quarters.
