Garrisen-NBC 300 NEW YORK AP - A spekesman for the National Breadcasting Co.-in the face of objections by New Orleans Dist. Atty. Jim Garrison-says the network definitely will telecast tenight a program criticizing aspects of Garrison's investigation of the assassination of President John F. Kennedy. William R. McAndrew, president of NBC News, also said Sunday the network expected Garrison to demand equal time and the network was "prepared for it."

The program, entitled "The JFK Conspiracy-the Case of Jim Garrison," is scheduled for 8 to 9 p.m. EDT. Garrison has said the actions of NBC make him believe it has a "calculated objective" of destroying his case against Clay L. Shaw in Garrison's investigation of the assassination. Garrison has obtained an indictment charging Shaw, a retired New Orleans businessman, with conspiracy to murder in the death of Kennedy in Dallas Nov. 22, 1952.

Garrison sent a six-page letter of complaint to Rosel H. Hyde, chairman of the Federal Communications Commission. It said NBC thas been so aggressive in attacking the state of Louisiana's case against Shaw prior to trial as to have gone far beyond the pretense of merely gathering and disseminating news. ...
Garrison asked that NBC not be allowed 'to use the public airways to accomplish such mean ends. ... A spokesman for the FCC said in Washington Sunday that Garrison's letter had not been received. In any event, the spekesman said, the commission is prehibited by law from determining the content of television programs. He said Garrison could demand network time to respond to the program under the so-called fairness doctrine. The commission then would determine whether Garrison should be given the time. Garrison contends that the Kennedy assassination was the result of a conspiracy, and he disputes the Warren Commission's findings that Lee Harvey Oswald acted alone.

The NBC program includes a statement that two principal witnesses in Garrison's case against Shaw had previously failed Garrison's lie detector tests. failed Garrison's lie detector tests.
