

Harve Morgan telephone show, KCBS; notes made in shorthand at time of broadcast. Morgan may have given source in earlier part of broadcast, which was not heard, but did not in the following excerpt.

"Belli said today he is now not so rigid and not so strong in his opinion that he previously held that Lee Harvey Oswald was indeed the only assassin and that Ruby was not connected with him. (Quoting Belli?) You will be amazed at some of the people who are going to be arrested in the months to come in connection with that assassination."
