

New Move in Garrison Case

3-6-68
New Orleans

Attorneys for Clay L. Shaw, seeking to prove that barrage of publicity has prevented Shaw from getting a fair trial in New Orleans, called television and newspaper officials to the stand yesterday to provide records of their coverage of the case.

Shaw, accused by District Attorney Jim Garrison of conspiring to assassinate President John F. Kennedy, chain smoked as the newspaper clippings, television and radio tapes were put into the record.
