## In Hawaii Lon Nol Gets Quick Checkup

### Honolulu

Cambodia's President Lon Nol was given a quick medical checkup at Tripler Army Medical Center yesterday, but delayed plans to enter the hospital for further tests and treatment until Monday, a hospital spokesman said.

The 61-year-old Cambodian leader, who arrived in Hawaii from the Indonesian island of Bali, conferred for about 30 minutes with Dr. Edward J. Kamin, chief of the hospital's department of medicine, and requested he be allowed to rest in his quarters at Hickam Air Force Base over the weekend, the spokesman said.
