

Recall Urged

Washington

Representative John Burton (Dem-Calif.) yesterday introduced a resolution in the House urging the immediate recall of U.S. Ambassador Graham Martin from South Vietnam.

Burton said Martin has "endangered the lives of Americans by failing to im-

plement plans for their prompt evacuation from South Vietnam."

Burton told a press conference earlier that the Ford administration is playing politics with the lives of Americans in South Vietnam by holding them as hostages for additional military aid for Saigon.
