Viet Resistance

Hong Kong

OCT 3 1975

There is still resistance in South Vietnam to the victorious Provisional Revolutionary Government, Saigon radio said yesterday.

It was the second time in a week that the radio had spoken of resistance in broadcasts monitored here. The broadcast indicated trouble in Phy Yen province in the center of the country.

"Rumors of the activities of reactionaries are exaggerated," the radio said, although it acknowledged, "There are some instances of resistance which have been uncovered and dealt with in good time."
