## But Troops Are Alerted For Mass War Protest

By DAVID E. ROSENBAUM Special to The New York Times

WASHINGTON, May - The Nixon Administration agreed today to permit a mass antiwar rally tomorrow on grounds immediately south of the White House, an area it had previously declared out of bounds.

The leaders of the New Mobilization Committee to End the War in Vietnam, which is coordinating the demonstration, said they would accept the Ellipse as a site and contended that "the Administration has backed down."

While being outwardly con-ciliatory, the Government was at the same time making plans for a massive security opera-tion. The Justice Department announced that it had requested about 5,500 trops to be available at "military bases or other Federal facilities to assist local law enforcement authori-ues it needed."

It was learned that plans were being made at the Com-merce Department and other downtown Federal buildings to house many of these troops to-night, and a communications

command post was be tablished in the Comme partment building.

One source reported that the troops would be stationed to the White House ground marrow, but Federal officials would not confirm this report.

## Guardamen Alerted

The District of Columbia National Guard was on alert, most ly in armories, and about 400 guardsmen were assigned to outlying police precincts to free policemen for duty at the demonstration.
