We the undersigned Bay Area trade union officers, executive board members and shop stewards have sent the following message to President Richard M. Nixon with a copy to Senate Foreign Relations Committee Chairman J. William Fulbright:

Dear Mr. President:

American working people and their families are deeply disturbed at your expansion of the war into Cambodia. Those men being killed are our sons — new casualty lists to add to the 40,000 already dead and 300,000 wounded in Vietnam.

On April 20 you announced that 150,000 men would be removed within the course of a year. Although we felt that even that pace was too slow, we hoped this was a turn toward peace, an end to the killing.

Now you have further divided this country by a number of blatant reversals in the course of a few days. First there were arms to Cambodia. Then there were American "advisors." Now an invasion in force!

This took place without even the pretext of a request from Cambodia, which international law considers a neutral nation.

This is a direct break with the US Constitution. Only Congress can declare war. Furthermore, you did not even consult with the Senate Foreign Relations Committee — the committee mainly responsible to advise

and consent. Your own Secretary of State William P. Rogers testified he told Congress that the United States would not escalate the war into Cambodia. Little wonder there are members of your own party who have said you have "broken faith with Congress."

You have created a credibility gap of incredible proportions.

You have pledged to the American people that we will be out of Cambodia by June 30.

In the light of this record, all we can say is — we don't believe you!

The economy of our country is steadily being eroded; your promises to stabilize the economy and control inflation have become meaningless. Our paychecks buy less for our families; our standard of living has been assaulted. We are suffering increased inflation and unemployment.

Now Cambodial. What next?
 There must be an end to these military adventures.

We want a cease-fire — Now!
We want out of Cambodia — Now!
We want out of Vietnam — Now!
We've had it!

Most important, this nation of ours must turn from war to peace. Any other course leads to disaster.

assaulted. We are suffering increased inflation and unemployment.

Now Cambodia! What next?

There must be an end to these military adventures.

We want a cease-fire—Now!

We want out of Cambodia—Now!

We want out of Vietnam—Now!

We've had it!

Most important, this nation of ours must turn from war to peace. Any other course leads to disaster.
