Thieu's Family in Geneva?

GENEVA — (UPI)—Vietnamese diplomatic sources said today that the wife and daughter of President Nguyen Van Thieu are in Switzerland, but the South Vietnamese diplomatic mission quickly denied it.

The sources said the president's wife and 17 year old daughter are making one of their "regular visits" to the president's small son, who is at a private Swiss school.

The president's son, the sources said, is at one of Switzerland's most exclusive private schools near Lausanne on Lake Geneva.

The school, following its long practice, refuses to disclose the names of pupils.

The diplomatic mission said:

"The president's wife is not here and it would be unlikely that she would come at this time because the children will be going home on holiday in June."
