WASHINGTON, March 8-Solicitor General Erwin N. Griswold told the Senate Judiciary Committee today that if the Government had not settled its three anti-merger suits

against the International Telephone and Telegraph Corporation, it would, he believed, have lost all three of them in the Supreme Court.

Mr. Griswold, a former dean of the Harvard Law School. termed the settlements "a very substantial victory for the Government."

He said that he had agreed to an appeal to the Supreme Court against I.T.T. to test the Justice Department's theory that conglomerates could be broken up under the present law. He added that if the Court had rejected that theory, it might have spurred needed Congressional action to control the expansion of huge conglomerates.

Confronted with a statement in a letter by I.T.T.'s lawyer, Lawrence E. Walsh of New York, that there was a "high probability" that the Government would succeed in the high court, Mr. Griswold replied, "It is a view with which I disagree.'

He also said that he could not remember the last time the Justice Department had lost an antimerger case in the Supreme Court, but he said that the Justices had never reviewed

Mr. Griswold's appearance as a surprise witness came at the end of the fourth day of hearings into allegations that the Justice Department settled the three antimerger suits last July on terms favorable to I.T.l. in exchange for a large contribution by an I.T.T. subsidiary to the 1972 Republican National Convention in Sar Diego

Acting Attorney Richard G. Kleindienst requested the hearings after it had been alleged that he misled the public by announcing that he had played no role in the handling or negotiations of the settlement.

House," Mr. Kleindienst said. adding that his job involved talking constantly with White House aides.

Although Judge McLaren had testified earlier that he did not recall discussing the I.T.T. case with Mr. Flanigan, Mr. Kleindienst disclosed today that he knew at the time that Judge McLaren had asked he White House economic advisor to hire Richard J. Ramsden of New York to make the analysis. It was not made clear how Mr. Kleindienst knew this.

## 10 More Witnesses

Mr. Flanigan's name was on a list of 10 witnesses that was drawn up today by members of the committee and submitted to chairman James O. Eastland, the committee chairman. Senator Tunney told reporters later that Mr. Eastland had agreed to hear these witnesses, along with at least a half-dozen others who had already been scheduled to testify-indicating that the hearings could continue for
