## Mansfield For Vote on Kleindienst

Washington

Senate Majority Leader Mike Mansfield (Dem-Mont.) said yesterday that critics of Attorney General Designate Richard G. Kleindienst so far have failed to make a case against him.

Mansfield urged a speedup of further hearings on questions directly involving Kleindienst's nomination as attorney general so that the nomination can "come to a head" on the Senate floor rapidly.

Mansfield said matters concerning the activities of International Telephone and Telegraph Corp. which are not directly linked to Kleindienst should be handled separately, so that all the evidence on Kleindienst's fitness for the nomination can be gathered rapidly.
