President Nixon's Subtle Shifts

late stage of the war, the real wishes and sympathies of the South Vietnamese people are hard to judge.

And this message finally grants that the Nixon doctrine after much debate and even confusion in many governments, should be read primarily as a "philosophic attitude." Its many ambiguities were deliberately drawn and therefore prevent it from defining detailed policies, the President writes. In fact, he says the doctrine requires American commitment and engagement abroad as frequently as it portends withdrawal and disengagement.

From the details to which it is then attached in this elaborate document, it is clear that Mr. Nixon has no desire to diminish the nation's interests or commitments abroad, only to make them bearable and palatable at home.

He holds out a future in which more foreign troops and American dollars can replace American draftees in the defense of those interests, but goes to some length to assure restive patrons and possibly calculating adversaries that the
