# Communist Bloc May Escape Impact of Surcharge

By JAMES FERON Special to The New York Times

10 per cent surcharge on im-canned hams and \$7.6 million changes noted in transactions the same boat, the newspaper ports ordered by President in other canned meats. Nixon in his economic package

experts here say that the new 10 per cent surcharge is not so much an additional levy as it is a rollback of the earlier concessions. Eastern Europe remains largely unaffected, therefore.

The first reactions have been political and ideological, with newspapers asserting that the Nixon moves represent evidence of flaws in the capitalist system.

nations.

remains largely unal recteu, therefore.

Only Poland of the Communist nations allied closely to the Soviet Union has "most-favored-nation" status, but even there it appears that the surcharges will have little effect.

According to regulations, "all duitable imports not subject to quantitative limitations" will be subject to the surcharge. Canned hams, which are Poland's major export, are subject to such limitations, and thus exempt.

Polish exports to the United States last year totaled \$98 million according to Polish | Million according to Polish | Change rates.

Struggle Is Predicted Some commentators in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the state-controlled press are predicting a new stage in the decisions announced by President Nixon mean damage to one of the basic cogs in the contemporary capitalist system.

Interpretation has been detailed and thorough, however, the contemporary capitalist system.

It said the dollar's convertability into gold at a fixed rate hold made it equal to gold as a reserve currency for western countries. It said President Nixon's move to end this convertability meant, however, that "now each capitalist countries."

Interpretation has been detailed and thorough, however, the dollar as a standard of value for other currencies.

may bypass the Communist nations of Eastern Europe through an irony of Cold War legislation.
