POWELE'S STOCKS PUT AT \$1-MILLION

Report Shows He Is Among Richest Court Nominees OCT 3 0 1971

By FRED P. GRAHAM

Special to The New York Times
WASHINGTON, Oct. 29-The Senate Judiciary Committee released today a financial report showing that Lewis F. Powell Jr., one of President Nixon's nominees for the Supreme Court, owns shares valued at more than \$1-million in 30 corporations.

The financial report, made by Mr. Powell to the committee at the request of five Democratic members, indicated he was one of the wealthiest men ever nominated to the Supreme Court.

It was also reported that Mr. Nixon's other nominee, William H. Rehnquist, has a net worth of \$77,050, including his home and personal belongings and a few pieces of real estate, but no shares of stock.

Mr. Powell, his wife and 19year-old son, Lewis F. Powell 3d, together own shares in 38 corporations.

Under a new set of ethical canons, judges are required to disqualify themselves from any case involving a company in which the judges or any member of their families own shares. The canons grew out of the controversies over former Justice Abe Fortas and Clement F. Haynsworth Jr., whose Supreme Court nomination was rejected after his ethics were challenged.

The new canons, which are expected to be adopted by the expected to be adopted by the American Bar Association next summer, require judges to sell any shares that "might require frequent disqualification." The canons pointedly note that mutual funds and government bonds pose no ethical problems for judges.

Mr. Powell, a Richmond lawyer, is said to be considering placing his stocks in a "blind" trust, designed to prevent him from knowing which stocks he puns.

However, some experts on judicial ethics say that blind judicial ethics say that blind trusts would pose ethical problems. E. Wayne Thode, a professor at the Utah College of Law who is helping a special A.B.A. committee draft the new ethical canons, said in an interview that "a blind trust wouldn't be an answer to a Justice's problems." c

He said that a Justice was required by the new ethical rule to know where his money is invested, and to avoid taking

rule to know where his money is invested, and to avoid taking part in cases in which he has an interest. Many people would not believe that a Justice with a blind trust did not really know how his money was invested, Professor Thode said.

Although the new ethical rules will not be automatically binding upon the Supreme Cou Justice Potter Stewart has been a member of the committee that is drafting them, and the lower Federal judiciary, at least, is expected to adopt them.

An example of how he could be pinched financially by selling his shares can be seen in his ownership of \$321,556 worth of shares in Sperry & Hutchison, Inc., which operates the S & H Green stamp enterprise. It was before the Supreme Court as recently as last year.

preme Court as recently as last year.

Mr. Powell's ownership of the S & H shares goes back to a family business that was acquired years ago by the S & H Company. The listed value of the stock has increased enormously since Mr. Powell's father first obtained it, so that much of the \$321,556 would be subject to capital gains tax. Since the nominee appears to be in the highest tax bracket, he would have to pay 35 per cent on this amount in taxes.

Court nominee.

He had asked the Nixon Administration not to consider him for a previous vacancy two years ago on the ground that he was too old. However, he said yes when Mr. Nixon, under criticism over his other potential nominees, asked Mr. Powell two weeks ago to accept the nomination.

Today the Americans for Democratic Action announced that it would oppose confirmation of Mr. Rehnquist, on the ground that he has "neither the respect for minority aspirations nor the devotion to the Bill of Rights which should be the hallmark of a Supreme Court Justice."

Mr. Rehnquist is an Assistant Attorney General who has taken strong law-and-order positions on such issues as wiretapping, mass arrests of demonstrators and surveillance of suspected subversives. The A.D.A. said in a statement that his record "is in opposition to the great advances of recent years in civil rights and civil liberties."

Nominee's Stands Disclosed

WASHINGTON, Oct. 29 (UPI)
—The Justice Department disclosed today that Mr. Rehnquist had opposed integration of high schools and public accommodations in his home town.

It also made documents available showing that the other Supreme Court nominee, Mr. Powell, wrote Attorney General John N. Mitchell urging hi mto reverse his ruling that Richmond's annexation of suburban areas violated Negro voting rights.

The disclosures were contained in a batch of documents made public by the Justice Department, in what appeared to be an effort to bring out anything potentially damaging to the nominees before their critics could spring it as a surprise.
