## IRS Probe of Bebe Rebozo's Finances

New York

The Internal Revenue Service has subpoenaed the personal financial records of Bebe Rebozo, a close friend of President Nixon, from a Key Biscayne, Fla., bank which Rebozo operates, ABC News reported last night.

After serving the subpoenas last week, the report said, IRS agents returned to the Key Biscayne Bank and Trust Co. Monday, "bringing with them computers to audit all bank records that relate to Rebozo's financial transactions" over the past six years.

Among the directors and officers of the bank, organized by Rebozo ten years ago, is multimillionaire Robert Abplanalp, who is a close business associate of President Nixon and is reported to have financed the purchase of Mr. Nixon's villa at San Clemente, Calif.
