

Irwin Shaw (quotes from interview):

"I've watched Richard Nixon since he first showed up, and he was a crook from the beginning and he debased the democratic process from the beginning."

.....

"He's the same Richard Nixon as always, except this time he has this powerful mandate, so all the things that made him Richard Nixon became more solidified and more powerful. He has also given us a highly personalized, predatory, paranoid government. He believes everybody is his enemy and anything he can do to defeat them is worthwhile and legal."
