## AF Manual Drops 'First Strike' Idea

Post 81117 Willed Press International

The Air Force said yester- of this nation will be to use day it will immediately revise our military forces only in re-one of its manuals which in-structs nuclear planners to de-vise programs so the U.S. from the manual." could launch a nuclear attack

manual that target planners provide was issued last month. the President with a "first strike" nuclear option.

Air Force officials said this requirement apparently was written into Air Force manual 2-11, titled "Strategic Aerospace Operations," in 1965 so a surprise nuclear raid could be carried out if a President ever chose to order one. Since then, President Nixon has specifically ruled out nuclear first strikes as a U.S. policy.

"The reference to a first have been "overlooked" when the revision was made. He said that "normally when things are revised, people just glance through them very quickly."

Officials said apparently when the revision was made. He said that "normally when things are revised, people just glance through them very quickly."
