

The Next POWs Getting Out

Washington

Here is a list of the American servicemen to be released tomorrow by North Vietnam.

The Pentagon released the names yesterday after notifying relatives. The Pentagon provided the man's name, rank, service and home town of record. Other information comes from files, PWO families and other sources.

In some cases the home town of record differs from the current residence of his wife or parents, from his birthplace, or from his last duty station. In these instances, other communities where the man has ties are listed after the home town of record.
