

## **H. Rap Brown Reported 'Up And Walking'**

**New York**

Black militant H. Rap Brown, who was captured and wounded when police aborted a bar holdup last October 16, was reported yesterday by Correction Department sources to be "up and walking around and improving steadily" during his confinement at the Belevue Hospital prison ward.

Brown denies his identity, but was identified through police and FBI fingerprints.

He is charged with attempted murder, robbery and illegal possession of a dangerous weapon.
