SOBELL'S LAWYER **GETS SECRET DATA**

Will Try to Prove Spy-Trial **Evidence Was Worthless**

By EDWARD RANZAL

By EDWARD RANZAL A cross-section sketch of the original atom bomb that has been impounded since the 1951 Rosenberg spy trial will be made available to counsel for Morton Sobell, who is serving 30 years for conspiracy to com-mit wartime espionage. The Government agreed yes-terday in Federal Court to turn over the sketch, as well as the secret testimony of two of its trial witnesses concerning the A-bomb. The sketch was drawn by David Greenglass, a con-tessed spy. William A. Kunstler, Sobell's lawyer, told the court that ex-amination of the secret matter was necessary for preparation of a motion to set aside Sobell's conviction. He will contend that the Government fabricated and intentionally used false testi-mony to convict Sobell and his co-defendants, Ethel and Julius Rosenberg, who were executed for their part in the espionage conspiracy. Mr. Kunstler hopes to show conspiracy.

for their part in the espionage conspiracy. Mr. Kunstler hopes to show that the impounded sketch was amateurish and worthless. Dur-ing the trial the Government introduced experts who testified that the sketch and other in-formation that was passed on to the Soviet Union had ad-vanced Russian thinking about the atom bomb by 20 years. Assistant United States At-torney John S. Martin Jr. said outside of court that before agreeing to release the secret evidence, the Government had cleared it with the Atomic En-ergy Commission.

ergy Commission. Mr. Kunstler agreed not to make the impounded matter public. Later he explained that he would ask three or four noted atomic scientists and phy-cients to avaluate the elected noted atomic scientists and phy-sicists to evaluate the sketch. He said he hoped that Dr. Harold Urey, Nobel prize sci-entist who worked on the orig-inal bomb at Los Alamos, Nev., would be one of the group. Dr. Urey has voiced serious doubts in the past about the guilt of the Rosenbergs and Sobell.

Gold's Cooperation Sought

Gold's Cooperation Sought In addition Mr. Kunstler said he hoped that Harry Gold, another member of the espio-nage conspiracy, would talk with him. Gold, who was sen-tenced to 30 years in prison, will be paroled on May 18. Greenglass, Mrs. Rosen-berg's brother, pleaded guilty before the Rosenberg trial to complicity in the plot to furnish the Soviet Union with the new-ly discovered atomic secrets. He was the Government's principal witness against the Rosen-bergs and Sobell. Greenglass was released from prison on March 16, 1960, after
