LA Times 19 11 PRIL 1967 Britons Ask Probe of Alleged Plot by CIA

LONDON (A)-Laborite members of Parliament Tuesday demanded an investigation into allegations that the U.S. Central Intelligence Agency (CIA) had intervened in British Guiana-now Guyana-to overthrow the govern-ment of Prime Minister Cheddi Jagan, a leftist, in

Prime Minister Harold Wilson, sidestepping the demands, said that Guy-ana was now self-govern-ing and the British government had no responsibility. He added that he was not responsible for events before Oc-

tober, 1964.
"I know of no activities of this kind in British administrative territories," he said.

Statement Asked
The issue was raised by Laborite Stan Newens, who asked if Wilson would make a statement on his policy toward efforts by the CIA and other U.S. intelligence organizations to infiltrate and influence organizations which function in British - administered territories for purposes of sub-version of law and order.

London's Sunday Times said last weekend that its investigations showed that the downfall of Jagan in the colony of British Guiana was largely en-gineered by the CIA.

It claimed that for more than five years, the CIA paid out something over \$700,000 through the London-based international trade union secretariat, the Public Services In-

ternational.
The result was about 170 dead, untold hundreds wounded, roughly 10 million pounds (\$28 million) worth of damage to the economy and a legacy of racial bitterness," the paper said.

Then Jagan again won the elections. The Sunday Times said the Americans thought the only way to remove the threat of Jagan to South America was through upheaval.

The paper said that through the front organization of the Public Services International the CIA financed a 79-day general strike which eventually brought Jagan down. It added that the money was funneled to Public Services International through the Gotham Foundation.
