

Publishers Weekly
Ed, thanks much for the Johnston story on The Secret Team and Frouty and the CIA. I have
interest in the book. My of hand opinion is that if they really wanted to know
decided to get them they'd not have been detected. In the end, they
wants them and didn't want to go to the parliamere, anyway. I have long had a
question about Frouty in all of this: does he work for the CIA?
CIA? In this interview he adds something to my knowledge. He says
The Bay of Pigs. The account of the aviation school and the Cuban
 Cubans who were in it by the CIA. The story was
story was a breakthrough. I don't know if the
press could see it. Frouty has been in the
another question. App: you will keep it
come to your attention. I have had
Publisher's Weekly because I don't
wrote the book. I don't know if
his account of the book. I don't know if
because he has already said it in
Secret Service. Thanks, Ed
