

24 Mar 72

Hunt and Liddy meet with Dr. Edward M. Gunn, "a doctor for the CIA from 1955 to his retirement in 1971." Gunn testifies before "a Senate hearing" (probably Senate Subcommittee on Health) 7 Nov 75, says of this meeting that "I was asked if I could help them by providing a behavior altering drug which they indicated would be given to an individual who was never identified."*

The individual probably was Jack Anderson. See entry 21 Sep 75, Hunt, Bob Woodward; entry 22 Sep 75, Haldeman refuses ... ; entry 29 Sep 75, Hunt, Jack Anderson.

WXP 8 Nov 75, Bill Richards - filed CIA (d)

*Other details probably will be entered 7 Nov 75, headed Hunt.
