North Vietnam - U.S. resumes full-scale bombing and mining of North Vietnam; raids to continue "until such time as a settlement is arrived at."
See POW file.

Hunt visits William F. Buckley Jr. in his New York apartment, two hours. Buckley says Hunt told him "the story of Watergate - as far as he knew it. He had no knowledge of any complicity by the President." This appears in book by Buckley to be published Sep 75; see entry 22 Aug 75, Hunt - William F. Buckley Jr.

Buckley says that although Mr. Hunt's will named him as alternate executor of her estate, he had not seen the Hunts "for several years" (by inference, at the time of Hunt's visit).
