Connally/AMPI - Jack Anderson says Watergate prosecutors are investigating bribery charges against Connally. See column for details, including the fact that Connally replaced the original bills (\$10,000) alleged to have been placed in a safe deposit box, selecting bills which had been issued before the payment was made. "Ironically, the former Treasury head forgot that Federal Reserve banks don't necessarily issue currency during the year it is dated. FBI agents have established that some of the bills in the bank box were not issued until after [it was] claimed the money had been deposited."
