Tapes and other documents, Jaworski subpoena - Jaworski asks U.S. District Court to issue a subpoena directing Nixon to turn over tape recordings and other documents relating to 64 conversations between Nixon and Dean, Colson, Haldeman and Ehrlichman.^{A M P} Tells court that he is asking for the subpoena only after having tried since 9 Jan to obtain these from the WH in an informal manner and that "I have as yet received no definitive response" as to whether the material would be made available. (Of the 64 conversations, 24 are listed in the Judiciary Committee subpoena.) Tells the court he needs the materials for the trial of the seven defendants indicted 1 Mar, and indicates that each of the items he has asked for contains evidence that either could be used by the government or that "might be helpful" to one or more defendants.

Jaworski had sent a letter 11 Apr to St. Clair, informing him that a subpoena would be requested of the court; letter was made public yesterday.
